BURT'S SHOES.

How to select a pair of shoes: Choose according to the use you will make of the shoes, remembering that fine, light shoes (like other light fabrics), though more expensive, cannot stand so much hard usage as the heavier goods.

The quality of shoes, with their accuracy of fit, and the comfort and ease with which they are worn, is the true test of cheapness.

1211 F Street N. W.

ELUTINA

A NEW MATERIAL.

What Is Velutina?

It is a very superior class of Velveteen. In appearance it is just like Slik Velvet, with the advantage that it drapes much better and will prove more durable. Velutina has many advantages to recommend it.

Reason No. 1—The texture is soft in substance.
Reason No. 2—It drapes in graceful folds.
Reason No. 3—It does not mark or crease easily.
Reason No. 4—It has a bloom on its surface.
Reason No. 5—It is as ahiny and rich as allk velvet, and it is so much cheaper.

This material is shown in various colorings, and it is an excellent illustration of the high pitch of beauty and richness which has been reached in the manufacture of this material. Mere inspection of the eye alone would fail to detect any difference between it and the much more costly Velvet made from Silk.

It is made in two different weight cloths—one being light for dresses and trimmings, the other being heavier for coats.

In all the new colorings and black. Price as follows:

24-inch Beautiful Goods, 75 cents. 24-inch Heavier Quality, \$1. 27-inch Handsome Goods, \$1.40.

These goods are on exhibition on our first floor in our just finished annex. To introduce it speedily, we wish every lady in Washington to ask to be shown this material.

Remember you can only buy "Velutina" of

LANSBURGH

The usual plan among dealers is to offer special bargains toward the close of the season. We reverse the process and begin the season with an offering that completely eclipses all that may be done by others who ol-
